

Toilet Paper Tube Planter

Are you wanting to plant flowers or your favorite vegetable in your garden starting from a seed? Planting seeds in a small planter before transplanting them into your garden is a great idea! Before you plant your seeds, check out the [Make a Toilet Paper Tube Planter](#) video, then start planning your summer garden, all while using your resources wisely!

Materials you need:

- [Make a Toilet Paper Tube Planter video](#)
- Toilet paper tube or a paper towel tube
- Scissors
- Pen
- Dirt
- Flower or vegetable seeds
- Water

Learn

1. Watch the [GSOSW Make a Toilet Paper Tube Planter Video](#) for instructions on how to make the planter.
2. Make a list and write down any helpful tips you want to remember.
3. Using resources wisely, what else can you use around your house to make a planter?
4. How often do you think you should water your seeds? Make a schedule so you don't forget to continue taking care of your seeds after you plant them!

Try It Out

Now, plant some seeds in your planters and watch them grow!

1. Find an empty paper towel or toilet paper roll in your house and make your own planters out of it following the instructions on the video.
2. Figure out what kind of seeds you want to plant, and plant them in your newly-made planters.
3. Water your seeds often and keep them in a safe and sunny place.
4. If you can, take a photo of your personal [Toilet Paper Tube Planter](#) and share it on the [GSOSW Facebook page](#). You can also use the hashtag #gsOutdoors.
